“Roman Opulence”

The Romans originated in the city of Rome in modern-day Italy. However, the Romans ruled countries across the globe - including Great Britain - which was called the Roman Empire. The Empire had a huge effect on the language, culture and history of countries in Europe, the Middle East and even Northern Africa.

The Romans were prodigious builders and expert civil engineers, and their thriving civilization produced advances in technology, culture and architecture that remained unequaled for centuries.

The Roman Army was a powerful force due to their strong discipline and extensive organization skills. Roman troops always fought in formation, as a group, and this made them quite powerful especially against less organized enemies who frequently fought with little formation.

What did the Romans do for fun?

Men all over Rome enjoyed riding, fencing, wrestling, throwing, and swimming. In the country, men went hunting and fishing, and played ball while at home. There were several games of throwing and catching, one popular one entailed throwing a ball as high as one could and catching it before it hit the ground.

Did You Know? Rome was founded by two brothers nursed by a she-wolf. They were discovered by a she-wolf on the banks of the Tiber, who took them in and fed them. The two twin brothers were named Romulus and Remus and were abandoned soon after their birth. Eventually the boys grew up to found a city. But like brothers, they had an argument about who would be the ruler of their new city, and Remus was killed. Romulus became ruler and named the city after himself: Rome.

A ROMAN SUITE FIT FOR JULIAS CEASAR HIMSELF

Main Features

One round and incredibly comfortable king size bed pillow mattress and all in real Ancient Roman style. Its like falling into clouds and hard to negotiate getting out of bed in the mornings. The room is on the corner and 40% larger than regular theme rooms, not surprisingly when you look on to the full Roman adorned jacuzzi a few feet from your bed, including the columns you'd expect in Roman times. The room also boasts a 42" LCD TV with HDTV and of course free high-speed Wi-Fi as standard. There's also a Mini fridge, in room coffee maker, private safe, iron and ironing board, fresh towels and all the trimmings to ensure your stay is as memorable as possible. On the opposite side of the room there is a spacious and well laid out sitting area for relaxing on those lazy days. The whole package including design, space, authenticity and comfort has been conquered to perfection. This is a perfect setting for any couple looking for complete romance. It has it all right down to the rose petals if you order them.

Welcome to Edmonton
“The city of champions”

Edmonton is the vibrant urban centre in the heart of the wilderness, the largest northernmost metropolis, and the capital of Alberta, Canada. Known for its natural beauty, culture, history and attractions, Edmonton is a city for everyone. It is home to Canada's largest living history museum, Canada's largest historical park and North America's largest mall. People originally settled here due to the good farmland and the farmland in Alberta extends much further north than in the other provinces. In fact, the earliest European settlements were in the far north of the province at Fort Chipewyan and Fort Vermilion.
